Education

University of Southern California
Bachelor of Arts in Cognitive Science
02/2026
- Relevant Courses: Cognitive Processes, Cognitive Neurosciences, Data Science, Python
- GPA: 4.0/4.0

Shanghai New Epoch Bilingual School
High School Diploma
05/2025
- Valedictorian in class of 2025
- Relevant Courses: AP Calculus BC, AP Statistics, AP Biology, AP Psychology, AP Chemistry
- GPA: 4.47/4.00 (weighted) 3.98/4.00 (unweighted)

Research Experience

Borner Lab, University of Southern California
Research Assistant
08/2025 - Current
- Contributed to research on neural mechanisms controlling feeding behavior using rodent models, enhancing understanding of appetite regulation
- Conducted literature reviews on appetite loss, nausea/vomiting, and disease-related weight loss to support experimental design
- Facilitated experimental procedures through behavioral observation, post-surgical monitoring, and data collection, ensuring accurate data for analysis
- Streamlined organization and preprocessing of experimental data, maintaining standardized lab records and protocols for consistency in research
- Prepared figures, briefs, and presentation materials for internal lab meetings

ExoID ZheJiang University Joint Lab of Molecular & Cellular Medicine
Research Assistant
08/2024 - 07/2025
- Assisted examination of exosomes for potential dementia treatments in Alzheimer's disease.
- Trained team on extracellular vesicle isolation and purification techniques in wet lab environment.
- Recorded lab operation data and supported cleaning of 2000+ data entries for accuracy and reliability.

Student Researcher
07/2024 - 08/2024
- Examined perceptions and social stigma experiences of individuals with psychiatric illnesses and character flaws, enhancing understanding of societal impacts.
- Explored transformation of character flaws into psychiatric illnesses, compared treatment approaches, and summarized importance of tailored interventions.
- Reviewed 50 academic papers on psychiatric illnesses and character flaws to inform research insights.

Pediatric Wellness Center, Zhongshan Hospital
Research Assistant; Experiment Coordinator
05/2023 - 07/2023
- Engaged patients in group sessions by playing various musical instruments to promote communication skills
- Curated playlists and documented patients' responses with therapy practitioners to enhance session effectiveness
- Supported music therapy sessions for adolescent patients (ages 6-12) diagnosed with autism

Student Researcher
04/2023 - 07/2023

- Co-authored psychology paper on enhancing reliability of anxiety diagnostic tests; coordinated 200+ volunteers for experiments (publication pending in College Psychology Journal)
- Utilized STATA for data cleaning and refined SAS scale, improving accuracy and utility for anxiety screening.
- Developed website hosting questionnaire using Self-Rating Anxiety Scale (SAS) to identify individuals with anxiety disorders.

Projects

Cognibuddy 06.2025 – Current
Project Team Leader, Founder, Website *Designer*

- Designed and led development of an AI-enabled home care system integrating wearable biosensors, geofencing, adaptive lighting pathways, and caregiver decision-support tools
- Implemented pilot program with nursing home in Nanjing; analyzed behavioral data (agitation patterns, wandering incidents) to enhance intervention strategies
- Built caregiver dashboard incorporating stress metrics, de-escalation guidance, and real-time monitoring to support care delivery
- Developed dignity-centered safeguards with minimal-surveillance architecture, consent-based data protocols, and non-invasive environmental redirection to promote user privacy
- Structured scalable subscription model (hardware leasing + app-based monitoring) to facilitate remote care services and support reimbursement pathways

Cognitive Assistance Product Design for Alzheimer's 06.2024 – 12.2024
Project Team Leader, Student Researcher, Product Designer

- Explored basic concepts, pathogenesis, pathophysiology, diagnostic methods, differential diagnosis, clinical presentation, treatment, prevention, and post-diagnosis care of Alzheimer's disease
- Designed cognitive training questionnaire for Alzheimer's patients and conducted surveys with 300+ families. Collected data on current cognitive training methods, interventions for emotional issues
- Conducted data analysis to identify pain points in existing cognitive training products. Co-designed an interactive device combining cognitive training and companionship functions, enabling patient- family participation to improve Alzheimer's care.

Leadership Experience

Post-War Children's Music Therapy Initiative Winter 2023, 2024, 2025
Organizer, Initiator, and Facilitator Belogorsk, Russia
- Initiated & organized music therapy programs for +120 Russian children under 15
- Designed & facilitated interactive sessions using Orff music techniques and adapted Russian songs
- Provided feedback & guidance to encourage emotional expression, development of musical interests

United Nation South South in collaboration with Xianju Pharma 08.2024 – 08.2025
Volunteer Programme Coordinator
- Investigated maternal mortality ratio in Kenya, with postpartum hemorrhage as lead cause
- Assessed all risk management before, during & after childbirth deliver for effective prevention
- Assisted in investigating the feasibility of adopting 2hr mngt. model to improve access to local women

NEBS Psychology Peer Support Network 03.2023 – 06.2025
Co-Founder, Vice Leader
- Organized & hosted three psychology peer support events, creating a supportive, inclusive space
- Established & managed a unique non-hierarchical organizational structure based on Tarot card themes to encourage creativity and collaboration
- Created & managed the NEBS Psychology Peer Support Network WeChat account, publishing articles with an average of 200 reads per post to promote mental health awareness

NEBS Student Union 09.2021 – 07.2024
Member (2021), VP of Academic Dept. (2022), Head of Organization Department (2023 – 2024)
- Led & organized large campus-wide events (Christmas party, gift exchange, masquerade ball) for approximately 400 participants, handling venue setup, procurement, and team management
- Introduced innovative elements such as live role-playing games, booth activities, and puzzles into the masquerade event, which received widespread positive feedback.

Awards

- 2024, Commendation, John Locke Essay Competition (Psychology Section)
- 2024, Global Bronze Award, British Biology Olympiad 2024
- 2024, AP Scholar with Distinction, College Board
- 2024, Championship, Brain Bee Regional (Shanghai)
- 2023, Team Bronze Award, International Economics Olympiad
- 2023, Individual Distinction Award, National Economics Challenge China

- 2023, Individual Distinction Award, National Economics Challenge China
- 2023, Shortlisted, ChinaICAC Youth Well-being Video Festival
- 2022-2024, Academic Excellence Award, Shanghai New Epoch Bilingual School
- 2023, Outstanding Student Leader, Shanghai New Epoch Bilingual School
- 2024, Class of 2025 Valedictorian, Shanghai New Epoch Bilingual School

Hobbies and Interests

- Piano
- Singing
- Host
- Music Composition
- Debate

Skills

- Data analysis
- Research methodologies
- Statistical modeling
- Experimental design
- Qualitative research
- Stata proficiency
- Laboratory techniques
- Mandarin Chinese
- English
- Russian
